

# CCHE Panel, empty

accepts up to 6 LANscape Modules

CORNING

The panels are used with field-installable connectors or in applications where the pre-connectorised cables are routed directly from the equipment to the piece of inter-connect hardware. This provides an efficient way to securely mate two or more connectors.

Closet connector housing panels are offered in 6-, 8-, 12-, 16- and 24-fibre panels for use with the LANscape® solutions hardware products. The panels are used with field-installable connectors or in applications where the pre-connectorised cables are routed directly from the equipment to the inter-connect hardware. The panels are available with a variety of industry-standard adapter types. In most applications, the closet connector housing panels are designed for applications where specified labelling and connector identification are required. This is accomplished by the use of coloured icons with different symbols molded into the icon.

## Features and Benefits

Designed to accommodate all industry-standard adapter types

---

Unique colour-coded connector labeling system

---

Universal approach is used; one panel size fits in all standard LANscape® Solutions hardware

Part Number: CCHE-CP00-LS

Part Number: CCHE-CP00-LS

# CCHE Panel, empty

accepts up to 6 LANscape Modules

CORNING

## Specifications

### General Specifications

Application	Enterprise Networks, LAN, Data Centre
Product type	Rack-Mountable Hardware

### Design - Hardware

Housing material	High-grade steel
Colour	black

### Mechanical Characteristics

Dimensions (L x W x D)	220 mm x 100 mm x 40 mm
Weight	0.074 kg

### Chemical Characteristics

RoHS	RoHS compliant
------	----------------

## Ordering Information

Part Number	CCHE-CP00-LS
Product Description	Empty CCH Panel, accepts up to 6 LANscape Modules

## Shipping Information

Units per delivery	1/1
